

LIVE ROCK MUSIC AND BEER AVAILABLE FRIDAY NIGHT!

MEGA-WORKSHOP

WHERE INDUSTRY AND FABRICATORS ROCK!

ST. LOUIS MO.

07-09 OCTOBER 2010

DON'T WEAR NICE CLOTHES TO THIS SHOW. YOU ARE GOING TO GET WET!

Imagine an annual convention that is in the tradition of the highly successful hands-on Stone Fabricators Alliance Workshops. Fabricators teaching fabricators with real world equipment & gear. The SFA introduces the MEGAWORKSHOP, a celebration of fabrication and gear. This event is organized by volunteers that actually make kitchens for a living and know what you want to see and learn when you go to a show.

ONE X-TREME VENUE

We are going to be located in a 40000SF facility with and overhead crane that is 140ft Long. You will see machines and suppliers coming together in an environment that promotes learning. Most machine manufactures will be running gear and tool suppliers will be doing live demos. We will have live music and entertainment on site to make it fun.

THIS IS YOUR EVENT!

PROJECT HABITAT

At the workshop we will be working with the local Habitat for Humanity and actually fabricate real kitchens for a few very lucky homeowners. That's right, we are going to build real kitchens using the latest in stone processing gear. Demos that makes sense and granite that does not wind up in a dumpster at the end of the show.

BUILD REAL KITCHENS

X-TRAORDINARY EDUCATION

Our education program was designed by fabricators for fabricators. From training on top polishing to understanding how to save money on your company taxes and everything in between. You will have the opportunity to learn. You will discover how to make more money and save money.

THIS IS NOT YOUR MOMS TRADE SHOW!
