

# THE INTERNATIONAL SURFACE EVENT

January 18 - 20, 2017  
Mandalay Bay Convention Center  
Las Vegas, Nevada USA

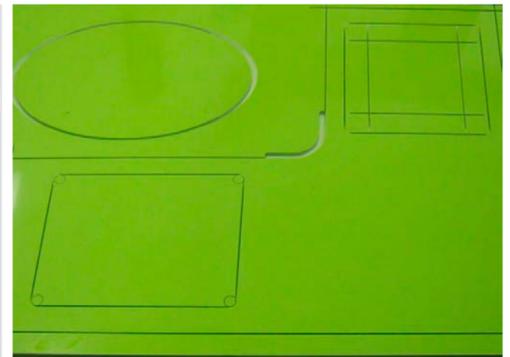

**Booth # 5677**

come and see  
**tecnika**

The first and most advanced multifunctional 5-axis CNC bridge saw - suitable for multidirectional cuts, mitering, sink cut-outs, engraving, texturing ...and more!

It also cuts curves and corners efficiently in automatic mode. The machine is equipped with an ISO-40 Spindle, that can hold both the blade and router bit or core drill, and a manual quick release for easy tool changes.
